

Ashford Division

Introducing Nurul (Naz) Islam

Election day is 4th May 2017

“It was proudest day of my life when I was elected a borough councillor for Ashford town in may 2015.”

Naz is your local Surrey county council candidate for Ashford division. An Ashford man for Ashford.

A local resident since 1999. Naz is a family man with four children who all go to school locally. He runs a thriving business in Ashford.

Naz is proud to be part of the Conservative team that found a way to end the streetlamp blackout at minimal cost. The new brighter plan will run initially for five years!

As a family man Naz cares with passion for community issues, such as an expansion of school places for future generations, wants a further GP surgery to support the loss of Thames Doc, is anti Green Belt development, and opposes bus service cuts.

- As Borough Councillor I have worked on several committees including Planning, Overview & Scrutiny, Economic Development and as a delegate on outside body for monitoring Heathrow noise.
- I was delighted to commit myself to the local Vote Leave campaign. Spelthorne voted 60.1% in favour of Brexit. I believe that Brexit will provide this country with a golden opportunity to transform our economy and restore our national pride.
- I supported the purchase of the BP site enabling Spelthorne to maintain vital services with the revenue generated from deal.
- I fought against the former Brooklands college site overdevelopment.
- I lobbied behind the scenes to keep the Staines fire station running. Preferring to object constructively and help achieve this through diplomacy.
- I support the Zone 6 campaign.

If elected I shall concentrate on making sure that Ashford does come first. This includes work to improve our roads, pavements and drainage in Ashford, some of which are long overdue repairs.

I will campaign to maintain proper fire station cover and bus links for our local residents.

I will continue to keep up the pressure on Surrey County Council to tackle the very real problem of noisy and dangerous heavy lorries around the Clock House Lane area.

I will seek a solution to the problem of commuters parking around Ashford station.

I have supported Spelthorne council’s decision to block unsuitable development on former Brooklands college site, and spoke against it on planning committee, I will continue to keep pressure on, until we have a suitable scheme that will enhance Ashford.

Along with my fellow Conservative councillors I will continue to campaign to achieve Oyster Zone 6 benefits for Ashford residents.

MY 6 POINT PLAN:

- 1. Driving efficiencies in the way our services operate.**
I will work to ensure all council services are properly costed and managed, providing value for money.
- 2. Maintaining vital bus services.**
I will be taking all necessary steps to preserve the vital bus and other services relied upon by the vulnerable in our society.
- 3. Seeking new economic opportunities.**
Through encouraging economic development in all aspects of the county council’s operations to fund services.
- 4. To radically re-examine the provision of school places and education services generally.**
I will work hard to ensure that there are sufficient places for our local children in our schools.
- 5. To ensure county policy protects the green belt while encouraging new housing and economic development.**
By ensuring suitable redevelopment is delivered through the re-development of existing areas and keeping the balance of residential and open space as a priority.
- 6. To oppose root and branch any cuts in our emergency services that might compromise public safety.**
One of my key focuses is to continue to seek alternatives to the closure of any local emergency services including our fire and rescue services.

Caring and campaigning for the community
