Lower Sunbury and Halliford — Spring 2019

LIGHT BLIGHT FIGHT

Sunbury riverside residents are still suffering from extensive light spillage across the river from the Waterside Sports Hub lights. Ever since the Hub was built there has been little control over the intensity and duration of the column and pavilion lights and scant regard for the impact on Sunbury residents.

Says Councillor Tim Evans,

"while sympathetic to all sporting activity, the lights only need to be on when athletes are using the facilities and then only at sufficient brightness for training. We continue to engage with Elmbridge BC to mitigate this unnecessary nuisance!"

KEEPING KEMPTON GREEN

As required by law Spelthorne Council must produce a new Local Plan on the future of our Borough, including a blueprint for the location of any future development. This process has to involve reviewing our Green Belt and it must be submitted to the Government for its approval. In preparing the plan Cllr. Ian Harvey, Council Leader and a local Sunbury Councillor, has pledged that the Conservatives will continue to support the retention of all Kempton Park within the Green Belt.

GOOD NEWS FOR FRENCH STREET

During last year retiring Cllr. Alfred Friday carried out a residents' opinion survey in sections of French Street to get local views on how to improve the road, and one of the priorities that emerged was a need for further traffic calming measures. Working together with Lower Sunbury and Halliford County Councillor Tim Evans, the two Conservative councillors brought the matter to a meeting of the Joint Committee between county and borough, and after a feasibility study it was agreed to start work on extending the 20 mph limit and improving the Hawke Park crossing during the 2019/20 municipal year.

Cllrs Alfred Friday and Daxa Patel

Local issues, local action, local Conservatives

Protecting services, safeguarding the future and providing much-needed homes.

Spelthorne's commercial property investment strategy now generates more than enough income to replace all of the money cut from our budget. While councils across the country are cutting services, Spelthorne has been able to improve facilities for our residents across all age ranges and, having safeguarded the borough's finances for the foreseeable future, this Conservative council has now started providing hundreds of much-needed affordable homes for our residents.
